Summary	The license Plate Number field becomes mandatory
Category	Problem
Severity	Normal
Description	<p>If the License Plate Number field contains more than 10 characters, it becomes mandatory, accompanied by a message indicating that the input should be limited to 10 characters. However, the mandatory status-associated message is removed if the input is fewer than 10 characters.</p> <p>How to recreate:</p> <ol style="list-style-type: none">1. Fill in the License Plate Number field with more than 10 characters and OBSERVE that the field indicates that it is mandatory.

Summary	Numbers with decimals are accepted in the Engine Performance, List Price, and Annual Mileage fields
Category	Problem
Severity	Normal
Description	<p>Engine Performance, List Price, and Annual Mileage fields accept numbers with a lot of decimals.</p> <p>The user is allowed to use wrong typing data and this could lead to confusion, entering wrong inputs, and difficulty in reading and interpreting data. The PDF files may not handle excessive decimal places well.</p> <p>How to recreate:</p> <ol style="list-style-type: none"> Fill in the Engine Performance, List Price, and Annual Mileage fields with a number with a lot of decimals and OBSERVE that no error message is displayed.
